

# LexisNexis® Jail Booking Search and Report

Powered by *Appriss® JusticeXchange®*

Access timely and authoritative data from the most comprehensive jail booking network in the U.S.

LexisNexis® Jail Booking Search and Report is a new, premium search feature available exclusively to government customers. It enables Accurint® for Law Enforcement users to quickly and easily search thousands of state and local jurisdictions across the country and review up-to-date booking records to instantly locate suspects, probationers, fugitives and other offenders. Seamless connectivity and instant access to a system presently containing more than 52 million records – and growing at an estimated half-a-million per month – empowers law enforcement officials as never before.

Every attempt to locate and apprehend John M., a sex offender who jumped bail and absconded before his court date, came up empty.

Three months later he was arrested across the country. Investigators on his trail used jail booking data from *Appriss® JusticeXchange®* to discover his arrest and immediately alerted local authorities to hold him for extradition.

## Accelerate your investigations with up-to-the-minute detail

Thanks to an easy-to-use interface, investigators will move efficiently and effectively through a rich set of data to locate the individuals they are trying to apprehend. LexisNexis® Jail Booking Search and Report provides seamless access to critical information with rapid query response. Its depth and breadth of information is unparalleled, including even photos, arrest dates, warrants and probation/parole records.

### Accessible information includes:

- Name and reported addresses
- Photos (multiple photos available based on booking history)
- Physical description of offenders, including height, weight, eye and hair color, scars and tattoos
- Booking date
- Offense type
- Warrants
- Probation/parole records

### Investigators can rapidly uncover vital information to:

- Locate non-compliant sex offenders and fugitives
- Uncover suspects' prior arrest histories
- Monitor probationers and parolees
- Locate offenders with outstanding warrants
